

The Skating Club of Boston

2019-2020 Agreement for Contracting Ice

August 25, 2019 – June 20, 2020

- The 2019-2020 Club Season will begin on August 25, 2019 and will end on June 20, 2020.
- Please note that by contracting Fall sessions through ActiveNet on the Club's website, you are financially obligated for the entirety of the season. There will be no refunds or reductions in cost for skaters who retire, relocate or suffer injury preventing them from using any contracted ice sessions.
- Ice will be assigned in the order of the following priorities:
 1. Club membership seniority.
 2. Members of the Club's High Performance program (as of Friday, August 9, 2019).
 3. Highest US Figure Skating Free Skating test passed (as of Friday, August 9, 2019).
 4. Date of application receipt.
- Submissions not received by Friday, August 9, 2019 priority deadline will be processed in the order they are received and will not be granted the priorities outlined above.
- Pairs must submit separate applications and clearly indicate which sessions they wish to contract for the purpose of skating as a pair.
- Once contracted ice has been assigned, skaters will have until Friday, September 13, 2019 to request changes (add/drop) to their schedule.
 - Sessions may be dropped outright until Friday, September 13, 2019. Skaters will not be permitted to drop sessions after that date and the contract will remain through occurrences of retirement, relocation or injury.
 - Skaters will still be responsible for sessions dropped during the add/drop period for the month of September.
 - Requested changes shall take effect as soon as possible after the submission of the add/drop form.
- All test requirements must be satisfied by the Friday, August 9, 2019 priority deadline.
 - The level designations for Free Skate sessions refer to the last test passed.
 - Club Management reserves the right to adjust a skater's schedule for reasons of improper test level.
 - Skaters passing a test that is beyond the designation of a session are strongly encouraged to move to an appropriate session if possible.
- Permanent Wait-Lists will be established for those sessions that are oversubscribed and skaters on the list will be granted an ordered priority above any walk-on skaters.
- Club Management reserves the right to modify the schedule at its discretion.
- Please note that:
 - Subletting applications are available upon request in the Club Office.
 - Same-day switches from one session to another (of equal or lesser value) will be permitted if space is available. Sessions may be exchanged within the same day and/or between family members.
- Skaters will receive an email receipt of their intended schedule after registering via ActiveNet.
