

MR 11 – On Club restricted sessions only, Club members preparing for any of the below events may take priority in the music rotation if working with a Club coach during the two-week period preceding the event. For MR 11 only, priority is defined as unlimited access to the music rotation. It is expected that all coaches and skaters will cooperate, support and not abuse this privilege in the best interests of the skaters representing the United States and the Club at this level of competition. The Club office will work to accommodate all requests from skaters who may be adversely affected by this rule to switch sessions to a different rink. International skaters who are not Club members will be considered for this privilege by Club management on a case-by-case basis.
