Details to Know for Photo Day:

- The restrooms will be used as a changing area.
- **Skates may not be worn on the stairs.** White folding chairs are in the area for skaters to put on and take off their skates.
- All Cast Members must have hard guards to walk on the cement floor to the synthetic ice.
- Following the group production number photos, Cast Members can opt to have an individual photo taken in their Ice Chips costume or their own competition costume if preferred as an individual photo is included in the show's participation fees. Cast Members will receive a digital copy of their group production number and their individual photo, if they have one taken.
- Cast Members who are in the Champions' Circle production number will also have a headshot taken for inclusion in the program book. Cast Members may wear either their own competition costume or their Ice Chips production number costume for these headshots.
 - If skaters wear their competition costume for the headshot but wish to have an individual photo in their production number costume, they may change and have the individual photo taken during the Champions' Circle time slot, if time allows, or during their production number time slot.
